*This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.*

## WOMEN, QUOTAS AND POLITICS

Routledge, London, UK. Hardcover. Book Condition: New. Dust Jacket Condition: New. First Edition. Although highly controversial, electoral gender quotas have been introduced recently in a large number of countries around the world to improve women's representation in national parliaments. *Women, Quotas and Politics* offers the first global comparative analysis of the new trend to introduce gender quotas in public elections written by researchers from all major regions in the world. This book presents cutting-edge research about the discursive controversies and actual implementation processes in countries with quota provisions. Providing a quantitative and qualitative assessment of these quotas in a variety of political systems, from developing nations and new democracies to established democracies, the contributors evaluate how they have been implemented; where these quotas have succeeded and failed; and how they can contribute to the political empowerment of women.
