Atlantic Publishers & Distributors Pvt. Ltd., New Delhi, 2012. Hardcover. Book Condition: New. There are predictions everywhere about India's rise as an economic superpower in the next few decades. International Monetary Fund's World Economic Outlook (WEO) Database (April 2011) states that Indian economy will grow from US\$ 1.54 trillion to US\$ 2.78 trillion by 2016. John Humphrey of Institute of Development Studies puts year 2050 size of Indian economy at US\$ 27 trillion. An optimistic Citibank study puts the figure at US\$ 85 trillion on PPP basis. Not only the prevailing economic conditions but also data-sets from official and commercial sources make it impossible for a clear picture of India's economic rise to emerge. The aim...
